Towards a new earth

A contemplative approach to preparing for tomorrow
and navigating change

21-24 May 2020 at

Abbaye de Bonnevaux

(near Poitiers)

The World Community for Christian Meditation invites you to experience a weekend of reflection, meditation and silence in a setting of natural beauty. This event is designed to give us new perspective and enhance our ability to initiate ecological transformation. A broad range of contributors, themselves committed to ecological transformation, will guide and accompany us through a series of talks, workshops and group discussions.

All talks will be translated into English. Some workshops will be held in English and the others will be in French.

Some workshops will be held outdoors, so please bring clothing and footwear suitable for a rural environment. This event will focus on discussion and exchange. We therefore encourage participants to attend for the full (3 days).

Meditatio ecology :

With time running out, we are called to implement, together, effective initiatives to care for our Earth and ourselves and to tackle the world's great ecological challenges (climate, biodiversity, etc.). This is why the World Community for Christian Meditation is proposing this event, open to all, which will offer time and space to cultivate our inner garden, connect with nature, and care for ourselves and the planet.

Each day will be punctuated by periods of meditation at Bonnevaux, either seated in silence in the magnificent meditation room or walking outdoors in the unspoiled grounds, and there will also be times for celebration. The talks by Laurence Freeman and Michel Maxime Egger will be followed by time for group discussion to which everyone is welcome to contribute. In addition, the workshops offered by each of the contributors will serve to enhance the sensitivity with which we approach our world, enabling each of us to consolidate our path to inner transition and transformation at the deepest level. We hope that each participant will leave feeling nourished and supported in his or her individual and collective actions. The Abbaye de Bonnevaux also hopes to use the input obtained from the group discussions to enrich its plan for the creation of a centre for peace.
